

Standard Bidding Forms

How can we prepare an Updated PPMP when the current form only indicates “Indicative” and “Final”?

An Updated PPMP is required whenever revisions occur **after the approval of the Final PPMP**. These revisions may include:

- Changes in cost or ABC;
- Adjustments in the procurement mode;
- Modifications in the schedule of activities; or
- Revisions in the scope or packaging of the project.

Even if the PPMP form does not explicitly have an “Updated” type, the updates can be documented as follows:

- Record all changes in the Remarks section of the PPMP form, clearly specifying the adjustments made.
- Ensure proper referencing and consolidation into the Updated APP so that the procurement plan remains aligned
